FOR IMMEDIATE RELEASE

Experts from the Provincial Government have advised the Regional District of Fraser-Fort George that the imminent threat of flooding along the Fraser River at the Shelley Townsite and Foreman Flats has diminished at this time.

Based on this information the Regional District of Fraser-Fort George is rescinding the June 6, 2007 Evacuation Alert for residents in these two areas.

If river conditions change another Evacuation Alert may need to be issued for residents in these two areas. The Regional District will advise residents at their door if the issuance of a new Evacuation Alert is required.

The Regional District of Fraser-Fort George's Emergency Operations Centre remains open and will continue to provide resources and/or assistance to our residents.

The public is asked to visit the RDIFFG website www.rdffg.bc.ca for updated flood information or to call our Emergency Operations Centre directly at the following numbers.
