FOR IMMEDIATE RELEASE

Nechako River High Water

BOATING WARNING

The Regional District of Fraser-Fort George is reminding residents and visitors to our region to be very cautious if you decide to take your boat on the Nechako River at this time.

The current conditions on the Nechako River are very dangerous as water levels are nearing an all-time high.

Please reduce your boat speed if you are on the river and avoid coming close to any high riverbanks.

The wake produced from river boats can have very destructive, negative shoreline impacts and can also produce dangerous undercutting of the banks.

PLEASE BE CAREFUL
