

**Invitation to Tender – ES-08-09
Road Paving
Foothills Boulevard Regional Landfill**

Addendum No. 1

Page 24: 5.0 APPLICATION AND COMPACTION OF GRAVEL

SHOULD READ:

- “5.1 The Contractor will supply and spread the material for the road surface. The material is to be applied to a compacted 75 mm thickness compacted of $\frac{3}{4}$ inch crush gravel.
- 5.2 The Contractor will finish the road service by applying and placing compacted 75mm thickness compacted of Class 1, 16 mm Medium Mix Asphalt.
- 5.3 All material will be compacted so that a firm driving surface is created that will allow for the passage of a two-wheel drive vehicle.
- 5.4 The finished road surface will be shaped with a center crown that slopes at approximately 2% to each edge to allow for water to drain off the road surface without eroding the road surface.
- 5.5 The road should slope toward the existing ditch line.”
