

Addendum No. 1
Request for Proposal ES-14-04

The Addendum is being issued prior to the closing of the tenders to provide further information, make changes to, or to clarify the Contract Documents and is to be read, interpreted and coordinated with all other parts of the Contract Documents. In the case of a conflict with the balance of the documents, this Addendum shall govern. **Tenders shall acknowledge receipt of this Addendum on the Tender Form and shall attach a signed copy of this Addendum to their Tender.**

This Addendum shall form part of the Contract Documents.

RFP ES-14-04

- Can we review a copy of last year's annual reports (2013) for each landfill? I see the 2011 Annual report for Foothills is on your website?

Response:

The 2013 Annual Reports are not yet available please refer to Section 6.0 SCOPE OF WORK, (sub-section), Reporting Requirements, which outlines the required information to be included in each of the listed reports.

- Additional Groundwater Monitoring Wells – would you like this proposed for every site, or is there only one (Foothills) or two sites that would require additional installation of groundwater monitoring wells?

Response:

Ideally a cost estimate for an additional Groundwater Monitoring Well at each site would be provided. Section 4.0 PURPOSE, though to be considered for within the scope of this proposal any costs associated with the installation and commissioning of any additional Groundwater Monitoring Well(s) that do not currently exist will not form part of this proposal.

- Do you require face to face meetings for every event? Or just the start-up meetings and spring meetings?

Response:

Section 6.0 SCOPE OF WORK, (sub-section), Meetings, outlines the required meetings. Items to be covered will be discussed (for agenda purposes) via phone or electronic media prior to actual meeting dates.

- What is your preferred laboratory for groundwater analysis?

Response:

Please refer to Section 6.0 SCOPE OF WORK, (sub-section), Sample Analysis.

- What month in the spring and fall would you like the sampling completed?

Response:

Section 6.0 SCOPE OF WORK, (sub-section), Environmental Monitoring, Spring Sampling Events shall take place from late May to early June. The Fall Sampling Events shall take place in September.

- Can we submit an interim report for the spring sampling event and submit the final report which includes both the spring and fall information? Hence one interim report and one final annual report. Does each landfill need a separate report?

Response:

Section 6.0 SCOPE OF WORK, (sub-section), Reporting Requirements, outlines the Reporting Requirements to be considered for this Request for Proposal.

- Can you provide depth to water and depth to bottom for each monitoring well at each site?

Response: Please find typical water levels and well depths for the deep and shallow wells at each site on the table below.

Site	Well Type	Water Level (m btor)	Well Depth (m btor)
Foothills Boulevard Regional Landfill	Deep	88 m	96 m
Mackenzie Regional Landfill	Deep	14 m	18 m
	Shallow	12 m	18 m
Closed West Lake Regional Landfill	Deep	16 m	18 m
Closed Legrand Demolition and Construction Waste Landfill	Shallow	9 m	12 m
Valemount Regional Transfer Station	Deep	19 m	23 m
	Shallow	12 m	15 m

Date: February 25, 2014

Addendum No. 1 Received.
