

Addendum No. 3

Invitation to Tender ES-19-05 Aerial Survey Services – Regional Landfills

The addendum is being issued prior to the closing of the Invitation to Tender to provide further information, make changes to, or to clarify the Contract Documents and is to be read, interpreted and coordinated with all other parts of the Contract Documents. In the case of a conflict with the balance of the documents, this Addendum shall govern. **Tenderers shall attach a signed copy of this addendum to their tender.** This addendum shall form part of the Contract Documents.

Question: In regards to the above noted project, is it possible to supply limits of survey coverage for each site? Can you also confirm whether ground surface contours are required in treed/vegetated areas? This would require the use of LiDAR technology rather than photogrammetry.

Answer: See Appendix C, Page 23 and Appendix D. Any of the files that exist will be released to the successful bidder.
