

**Addendum No. 4**

**Invitation to Tender ES-19-05  
Aerial Survey Services – Regional Landfills**

The addendum is being issued prior to the closing of the Invitation to Tender to provide further information, make changes to, or to clarify the Contract Documents and is to be read, interpreted and coordinated with all other parts of the Contract Documents. In the case of a conflict with the balance of the documents, this Addendum shall govern. **Tenderers shall attach a signed copy of this addendum to their tender.** This addendum shall form part of the Contract Documents.

**Question:** We ask if there is any chance we can submit via email to save the planet?

**Answer:** See Section 1, sub-section 1.4, page 2 of the Tender document.

**Question:** Appendix C, item 2 states, “Contours will be generated for both treed and cleared areas for each site.” Creating contours in the treed areas would require Lidar, or conventional ground surveying. Is it acceptable for vendors to use existing data from provided drawings to generate contours in the treed areas? This approach would assume that there has been no topographic change in the treed areas.

**Answer:** See Appendix C, Page 23 and Appendix D. Any of the files that exist will be released to the successful bidder.

**Question:**

We don't have a corporate seal; do we still need to seal the signatures with something?

Invitation to Tender ES-19-05 Tender Form requires both a corporate seal and a seal of the individual tenderer. Is there another form of authorization that would be deemed acceptable such as being signed by one of the corporations Director's and commissioned by a Commissioner of Oaths?

**Answer:** Refer to the tender document requirements.

March 18, 2019

Addendum No. 4 Received.
