

Addendum No. 3

Invitation to Tender ES-17-05 Aerial Survey Services – Regional Landfills and Community Sewage Systems

The addendum is being issued prior to the closing of the Invitation to Tender to provide further information, make changes to, or to clarify the Contract Documents and is to be read, interpreted and coordinated with all other parts of the Contract Documents. In the case of a conflict with the balance of the documents, this Addendum shall govern. **Tenderers shall attach a signed copy of this addendum to their tender.** This addendum shall form part of the Contract Documents.

- 1) **Question:** Just reviewing the parcel fabric for these locations. Mackenzie Regional Landfill and Summit Lake Community Sewage System are on un-surveyed Crown land and have no associated plan or parcel designation. Am I correct in this discovery? If there is no parcel or plan, how would you want the site defined?

Answer: Yes, The Mackenzie Regional Landfill and Summit Lake Community Sewage System are permitted sites located on un-surveyed Crown land. Define all sites by site name and nearest referenced location. Refer to Appendix C.

- 2) **Question:** For the sites that do have legal survey plans are you expecting us to survey all existing property corners and show what we find/don't on the plans?

Answer: No, please refer to Addendum 2 and the Answer to Question 1.

- 3) **Question:** Some of the locations also do not have any geodetic monuments nearby. For these would geo-referencing by use of Natural Resource Canada Precise Point Positioning service be acceptable for UTM coordinate determination and vertical datum?

Answer: Please refer to Appendix A and Section 3, Introduction and Background. It is up to the bidder to state the horizontal and vertical accuracies they are proposing.

March 24th, 2017

Addendum No. 3 Received.

Signature of Tenderer
