

Addendum No. 1

Invitation to Tender ES-18-03 Aerial Survey Services – Regional Landfills

The addendum is being issued prior to the closing of the Invitation to Tender to provide further information, make changes to, or to clarify the Contract Documents and is to be read, interpreted and coordinated with all other parts of the Contract Documents. In the case of a conflict with the balance of the documents, this Addendum shall govern. **Tenderers shall attach a signed copy of this addendum to their tender.** This addendum shall form part of the Contract Documents.

Question: Could you please send me a copy of the area-of-interest polygon for each site? It can be any universal format like Shp, KMZ, DXF, DWG, etc.

Answer: Any of the above files that exist will be released to the successful bidder.

Question: Could you also send along the ground control identification and coordinates for each site and a sample of the DEM/breaklines from previous volumes mapping?

Answer: Any of the above files that exist will be released to the successful bidder.

Question: What is the required contour interval for each site?

Answer: See APPENDIX B, page 22

Question: Please clarify if Ground Control Points are required for this project.

Answer: Any of the above files that exist will be released to the successful bidder.

Question: Do you have legal cadastral info for these 3 sites?

Answer: Any of the above files that exist will be released to the successful bidder.

Question: Has there been previous photogrammetry on these sites and did they use GCPs

Answer: All sites have been previously surveyed.

Question: Under section 6, Tenderers need to submit pages 12- 18 and provide a start to completions work plan. Will you be able to clarify the work plan criteria? Does this include the methodology, software packages, survey strategy and that will be used for each site or is this simply a timeline that needs to be provided (ie. gantt chart).

Answer: A timeline, Gantt charts are acceptable

Question: What is the desired absolute accuracy for the deliverables? What is the preferred resolution for the imagery?

Answer: See APPENDIX B, page 22

See page 2 for signature
