

REGIONAL DISTRICT
of Fraser-Fort George

**MEDIA
RELEASE**

FOR IMMEDIATE RELEASE: March 31, 2022

REGIONAL DISTRICT RETIRING TIRE COLLECTION SERVICES

As of today, the Regional District of Fraser-Fort George will no longer accept tires at the Foothills Boulevard Regional Landfill and the Shelley and McBride Regional Transfer Stations.

Tire collection at other Regional District solid waste facilities will be phased out in July.

The change is a result of a number of factors including space constraints and collection issues at the landfill and transfer stations. Additionally, the change recognizes the many options available for used tire collection. In Prince George alone, there are more than 20 outlets that provide the “return to retailer” service to accept old tires.

For information about where to take old tires, visit the Tire Stewardship of BC website at www.tsbc.ca
