

Addendum No. 1

Invitation to Quote ES-20-13

**Compaction and Cover of Demolition Materials
Mackenzie Select Waste Landfill**

The addendum is being issued prior to the closing of the Invitation to Quote (ITQ) to provide further information, make changes to, or to clarify the ITQ Documents and is to be read, interpreted and coordinated with all other parts of the Contract Documents. In the case of a conflict with the balance of the documents, this Addendum shall govern. **Bidders shall attach a signed copy of this addendum to their quote.** This addendum shall form part of the Contract Documents.

Question: Page 7, Part 2: Specifications 1.11 states "The period of work is from the date of issuance of a Purchase Order. Following the initial cleanup and covering of the accumulated demolition, land clearing, and construction waste, frequency of work will be as needed based on seasonal impact of traffic volumes and materials brought into the facility." What is the frequency of servicing that the RDFFG is anticipating?

Answer: DLC volumes can vary from season to season. Generally, DLC volumes are low during the winter season, and increase during spring and summer. There are several variables that the RDFFG can not predict when it comes to volumes including but not limited to construction projects, residential renovations, and land clearing. The Mackenzie servicing schedule could be every 20 days or once a month. Possibly a more frequent level of servicing based on DLC volumes. Servicing at a lower frequency would likely occur during the winter season.

Date: June 17, 2020
