

Addendum No. 1

Invitation to Quote ES-20-15

Supply and Delivery of One 2020 Skid Steer Loader

The addendum is being issued prior to the closing of the Invitation to Quote (ITQ) to provide further information, make changes to, or to clarify the ITQ Documents and is to be read, interpreted and coordinated with all other parts of the Contract Documents. In the case of a conflict with the balance of the documents, this Addendum shall govern. **Bidders shall attach a signed copy of this addendum to their quote.** This addendum shall form part of the Contract Documents.

Question 1: Regarding transmission, do you prefer pilot controls for operation whereas forward/reverse and loader/bucket functions are all done with hand controls or would you prefer hand controls for forward/reverse and foot controls for loader/bucket operation?

Answer 1: The preferred pilot controls would be the hand controls used for both directional movements as well as attachment control.

Question 2: Would you prefer an alternate tire system such as solid or foam filled?

Answer 2: As per the specification sheet, we are asking for pneumatic bias with traction suitable for hard surfaces due to the nature of operations. We are not interested in alternate tire systems at this time.

Date: July 13, 2020

Addendum No. 1 Received.
