

## **Addendum No. 1**

### **Invitation to Tender ES-21-08**

#### **Leachate Testing Services - Foothills Boulevard Regional Landfill**

The addendum is being issued prior to the closing of the Invitation to Tender to provide further information, make changes to, or to clarify the Contract Documents and is to be read, interpreted and coordinated with all other parts of the Contract Documents. In the case of a conflict with the balance of the documents, this Addendum shall govern. **Tenderers shall attach a signed copy of this addendum to their tender.** This addendum shall form part of the Contract Documents.

**Question #1:** Could you describe how the grab sample is to be collected from monitoring point #1? Is there a sample port ball valve or a manhole where the sample is collected from?

**Answer #1:** Grab samples are to be obtained at Monitoring Point #1, also called the lift station, where leachate from the landfill is collected. The lift station is a large chamber underground with a surface opening approximately one and a half feet above ground. The lift station is accessed with a lift hatch, enabling grab sampling to be safely completed from the outside.

**Question #2:** We currently do not have equipment insurance on all owned or rented equipment. Would it be acceptable instead if we include a signed agreement that would not hold the Regional District liable for any damage or loss to our equipment?

**Answer #2:** Please refer to Section 12 of the Invitation to Tender.

**Question #3:** Firefighting expense insurance does not appear to be applicable for the scope of work involved. Could this insurance requirement be waived?

**Answer #3:** Please refer to Section 12 of the Invitation to Tender

Date: April 30, 2021

Addendum No. 1 Received.
