1.0 INTRODUCTION AND BACKGROUND

1.1 Introduction

The Regional District of Fraser-Fort George (the “Regional District” or “RDFFG”) is inviting proposals from qualified firms to provide consulting services for a feasibility study on compost processing and seasonal yard waste collection in member municipalities. The Regional District currently hauls municipal solid waste from each of the member municipalities to the Foothills Boulevard Regional Landfill and is looking to eliminate the yard waste currently being landfilled. The goal of this study is to identify local compost processing options in member municipalities as well as providing the associated costs for the service provision of seasonal yard waste collection.

The successful consultant will have an excellent knowledge of the Organic Matter Recycling Regulation, curbside collection services as well as compost processing operations on small and large scale.

1.2 Background

The Regional District currently operates a centralized composting facility on the site of the Foothills Boulevard Regional Landfill in Prince George. Beginning in 1995, the Regional District accepts yard and garden waste along with manure and bedding for processing through windrow composting operations. Yard waste is delivered to the composting facility primarily by individual and commercial landscapers, tree maintenance companies, and the public. Yard waste is collected and hauled to the compost facility from several of the regional transfer stations, but this does not encompass the member municipalities of the District of Mackenzie, the Village of McBride, or the Village of Valemount. Table 1 includes the yard waste tonnages collected at the Vanway Regional Transfer Station, the Quinn Street Regional Recycling Depot, and the yard waste brought directly to the Foothills Boulevard Regional Landfill.

Table 1 Yard Waste and Manure Tonnages Received for Processing

Tonnage Received From	2017	2018	2019	2020	2021
Vanway Transfer Station	824.9	742.6	874.6	934.9	955.7
Quinn St Recycling Depot	1,260.4	1,210.4	1,312.2	1,524.6	1,443.9
Foothills Landfill Self-Haul	3,386.7	3,155.5	3,723.0	3,919.4	3,572.7
Foothills Landfill Manure only	1,422.9	1,046.0	1,173.7	1,098.7	1,068.1
Total Material Received for Processing	6,894.9	6,154.5	7,083.5	7,477.6	7,040.4

Finished compost is marketed as NorGrow and is sold as a soil amendment at the Foothills Boulevard Regional Landfill. For the last five years, NorGrow compost has been backhauled to the McBride and Valemount Regional Transfer Stations to be sold in bulk from these sites. Currently, yard waste is collected at both the Mackenzie Regional Transfer Station and the Valemount Regional Transfer Station. The yard waste is chipped every two to three years and left in static windrows. This partially processed compost material is used onsite for erosion control.

The Regional District’s 2015 Regional Solid Waste Management Plan (RSWMP) identifies the potential to increase organic waste diversion through composting. The Waste Diversion Implementation Strategy, the detailed workplan for the RSWMP, lists Organics Diversion Program as priority #6 and includes an organic waste market study, seasonal yard waste collection and a compost processing feasibility study.

Each of the member municipalities, the City of Prince George, the District of Mackenzie, the Village of Valemount and the Village of McBride (beginning spring 2022) provide automated curbside collection of municipal garbage. The Regional District is currently working on an entrance relocation project for the

Foothills Boulevard Regional Landfill which includes the development of a new centralized composting area.

This includes the yard waste drop off locations at the Vanway Regional Transfer Station and the Quinn Street Regional Recycling Depot and the compost processing operations at the Foothills Boulevard Regional Landfill. The Regional District is also considering the design and development of a new centralized composting area as part of the upcoming entrance relocation project at the Foothills Boulevard Regional Landfill. The study will identify compost processing operations in the other member municipalities where there are currently undeveloped composting operations and limits on the amount of space available at the transfer stations in the District of Mackenzie, the Village of Valemount and the Village of McBride.

The failure of either the Proponent or the Regional District in any one or more instances to enforce one or more of the terms or conditions of this Contract or to exercise any right or privilege in this Contract or the waiver by the Proponent or the Regional District of any breach of the terms or conditions of this Contract shall not be construed as thereafter waiving any such terms, conditions, rights, or privileges, and the same shall continue and remain in force and effect as if no such failure to enforce had occurred.

23.0 FORCE MAJEURE

If either the Consultant or the Regional District are prevented from performing their obligations under the Contract, or where the Regional District's work in respect of which the Consultant is providing Services cannot be performed, because of an act of God, an act of a legislative, administrative or judicial entity, fire, flood, labour strike or lock-out, epidemic, unusually severe weather, or other similar cause outside of the control of the Parties (collectively "Force Majeure"), then the obligations of the Consultant and the Regional District under the Contract shall be suspended for so long as the condition constituting Force Majeure continues. The Party affected by Force Majeure shall provide the other Party with notice of the anticipated duration of the Force Majeure event, any actions being taken by the Party providing notice to avoid or minimize the effect of the Force Majeure event, and shall make reasonable efforts to remove or mitigate the effects of the condition constituting Force Majeure. Upon the termination of the Force Majeure event, the Regional District shall grant to the Consultant a time extension for performance of any milestone dates required as part of the Services as may be agreed with the Consultant or, if the Regional District and the Consultant are unable to reach agreement, as determined by the dispute resolution process under Section 21 of the Contract. Where as a result of Force Majeure there is a material increase in the Consultant's cost of or the time required for the performance of the Services that is not offset by a decrease in cost, then the Regional District shall increase the amount of the service fee payable to the Consultant under Section 11 of this Contract, as may be agreed by the Consultant, or as determined under Section 21 of the Contract. If the event of Force Majeure results in a material increase in the cost of the work to be performed in respect of which the Consultant is providing the Services, then the Regional District may choose not to proceed with the completion of the work and may terminate this Contract. If the Regional District terminates this Contract following the termination of the Force Majeure event, then it shall compensate the Consultant in accordance with Section 7.1 of this Contract.
